MEMORANDUM TO: JASON L. ANDERSON
SUBJECT: Congratulations on your recent achievement within Career Framework

Congratulations! I am delighted to inform you that you have been certified as an Architect effective December 19, 2014.

I want to thank you for your efforts in preparing your validation package and participating in the Architect Certification process. Your eligibility for certification was based on a review of your validation package, and on the recommendations of the board members and reviewers who conducted your interviews. At this time, you may also add the Architect Certification to your BluePages entry.

Please note that recertification is required in three years. The criteria to be used will be those required of the profession at that time.

As a Certified Architect, you are now eligible to participate in The Open Group's Certified Architect (OpenCA) program and receive their Master Certified Architect credential. If you are interested in this credential, please review and action the information found at this [link](#). Note that there are fees associated with the Open Group registration. Your organization's policy with regard to the reimbursement of those fees can determine your eligibility for reimbursement.

Again, congratulations on your accomplishment of this career milestone! You are at the forefront of an exciting profession that IBM has established to address the needs of our clients.

A handwritten signature in black ink that reads "Cheryl Spellman". The script is cursive and fluid, with the first and last names clearly distinguishable.
